

FALL 2018 - UC MERCED

UNDERGRADS

STRATEGIES FOR RESEARCH EXPERIENCE SUCCESS

A workshop for undergraduate students in STEM fields at the University of California, Merced. This workshop is jointly hosted by the NSF-CREST CCBM and MACES research centers with support from the STEM Resource Center and will help students prepare an application for the centers' fellowship calls for Fall 2018/Spring 2019.

Brief overview of research opportunities for undergraduate students offered through CCBM and MACES and their partners, like NASA and Stanford Biosciences

Strategies to write a competitive application

Best practices for professionalism in the lab

Plan B: "What if I don't receive a research fellowship?"

Previous undergraduate fellows share their stories

Application preparation for research fellowship
